

LEGO TECHNICIANS

Have fun with Lego while building skills for social communication, turn-taking, understanding group rules – hidden rules, following instructions, fine motor skills and more!

Our Lego Technicians group will run with 2 sessions per week (4 sessions in total). These are 1.5 hours per session face to face.

*Lego sets for building are not for clients to keep. The cost covers all 4 sessions, however, participants are not required to attend all sessions if they choose, at a loss to the participant. You will be required to sign a service agreement to cover all sessions.

Where

32 Burton Street,
Cannington, 6107
