

Regional & Remote Service Delivery – South West & Great Southern WA

Superyou Therapy provides mobile, community-based allied health services across the South West and Great Southern regions of Western Australia. All services are delivered in the places that matter most to you — home, school, early learning settings and community environments.

As service delivery in regional and remote areas involves additional travel time and operational costs, pricing is applied in line with the NDIS Pricing Arrangements and Price Limits, using the Modified Monash Model (MMM) classification system.

How Regional & Remote Pricing Works

The NDIS applies location-based price loadings to ensure participants living outside metropolitan areas can access sustainable services.

Pricing is determined by the location where the service is delivered, not where the provider is based.

Under the NDIS:

- MMM 1–5 (Metro & Regional areas)
Standard NDIS price limits apply
 - Occupational Therapy and Speech Pathology: \$193.99 / hour
- MMM 6 (Remote areas)
Price limits include a 40% loading
 - Occupational Therapy and Speech Pathology: \$271.59 / hour
- MMM 7 (Very Remote areas)
Price limits include a 50% loading
 - Occupational Therapy and Speech Pathology: \$290.99 / hour

These loadings are built into the NDIS price caps and are applied automatically where eligible.

You can check your MMM Region here: [Modified Monash Model](#). There is also a fact sheet here: [Modified Monash Model – fact sheet](#)

South West & Great Southern Coverage

Across the South West and Great Southern, service locations may fall within MMM 4, MMM 5, and in some outer areas MMM 6 classifications.

Where a service location is classified as remote (MMM 6), the relevant NDIS remote pricing applies. This ensures continued access to high-quality allied health services across regional WA.

Regional (MMM 4-5) Speech and OT Fees – How Charges Are Calculated

Fees are calculated using the same pricing structure across all service settings.

Minimum session lengths vary depending on where therapy is delivered.

Appointment type	Face-to-face time	Preparation & planning	Case notes	Total billed time	Total fee
30 minute session <i>**Please note this consult length is only available for telehealth sessions</i>	30 minutes	7.5 minutes	7.5 minutes	45 minutes	\$145.49
45 minute session <i>**Please note this consult length is only available for telehealth sessions</i>	45 minutes	10 minutes	10 minutes	1 hour & 5 minutes	\$210.16
1 hour session	1 hour	15 minutes	15 minutes	1 hr 30 min	\$291.00
1.5 hour session	2 hours	20 minutes	20 minutes	2 hr 10 min	\$420.31
2 hour session	1.5 hours	25 minutes	25 minutes	2 hr 50 min	\$549.64

Additional Billable Items

Additional billable items are charges for work that supports your therapy, but may occur outside the main appointment time outlined above, or in addition to your booked session.

All additional charges are explained and discussed with you prior to charging.

Item	Cost
Additional session time or non-face-to-face supports (e.g. reports)	\$193.99 per hour
Travel Time (up to 60 minutes)	\$97.00 per hour (50% of the NDIS hourly rate)
Travel Kilometres	\$0.99 per kilometre travelled

Home, school, and community visits:

All non-clinic sessions at home, school or in the community are booked for a **minimum of one (1) hour** face-to-face time.

Shorter session lengths of less than one hour apply only to clinic-based and telehealth services.

Remote (MMM 6) Speech and OT Fees – How Charges Are Calculated

Fees are calculated using the same pricing structure across all service settings.

Minimum session lengths vary depending on where therapy is delivered.

Appointment type	Face-to-face time	Preparation & planning	Case notes	Total billed time	Total fee
30 minute session <i>**Please note this consult length is only available for telehealth sessions</i>	30 minutes	7.5 minutes	7.5 minutes	45 minutes	\$203.69
45 minute session <i>**Please note this consult length is only available for telehealth sessions</i>	45 minutes	10 minutes	10 minutes	1 hour & 5 minutes	\$293.32
1 hour session	1 hour	15 minutes	15 minutes	1 hr 30 min	\$407.39

1.5 hour session	2 hours	20 minutes	20 minutes	2 hr 10 min	\$586.63
2 hour session	1.5 hours	25 minutes	25 minutes	2 hr 50 min	\$765.88

Additional Billable Items

Additional billable items are charges for work that supports your therapy, but may occur outside the main appointment time outlined above, or in addition to your booked session.

All additional charges are explained and discussed with you prior to charging.

Item	Cost
Additional session time or non-face-to-face supports (e.g. reports)	\$271.59 per hour
Travel Time	\$135.80 per hour (50% of the NDIS hourly rate)
Travel Kilometres	\$0.99 per kilometre travelled

Home, school, and community visits:

All non-clinic sessions at home, school or in the community are booked for a **minimum of one (1) hour** face-to-face time.

Shorter session lengths of less than one hour apply only to clinic-based and telehealth services.

Travel Time & Travel Costs

As all Superyou Therapy services in these regions are mobile, travel may be charged in accordance with NDIS rules and must be agreed upfront in your service agreement.

Travel Time (Therapy Services)

In line with the NDIS Pricing Arrangements:

- Regional areas (MMM 4–5): Up to 60 minutes each way may be claimed
- Remote & Very Remote areas (MMM 6–7): No time cap applies to travel time

Travel time for therapy supports is billed at 50% of the relevant hourly rate, as set by the NDIS.

Travel Costs (Non-Labour)

Where applicable, additional non-labour travel costs may be charged, such as:

- Travel kilometres: \$0.99 per kilometer
- Parking fees

What This Means for You

- Pricing will never exceed NDIS price limits
- Any applicable regional, remote or travel charges are discussed transparently before services commence
- Services are designed to maximise value, continuity and access, particularly for regional families and communities

If you're unsure how your location is classified or how pricing applies to your plan, our team is happy to help.
